*County Clerk*

**WALKER M. WORTHY, JR.**  
*Deputy County Clerk*

The Mercer County Clerk's Office just unveiled a new website offering more property information, with satellite pictures, in partnership with other Mercer County departments.

This County-wide property information portal enables searchers to obtain all public property information with satellite pictures. The website includes property information from the County Clerk, the Mercer tax assessor, County Planning Office, and many other departments to be obtained in one web search.

Previously, one would have had to go many different websites, or hire a professional "title plant" to obtain such detailed property information. This is all available in one place now – as part of Mercer County's commitment to make work easier and more technologically friendly for our constituents.

All you need to do is sign in at our website: <http://pip.mercercounty.org/signin>.
